Proposal Details

3. Proposal Details

Well thought out and written descriptions, in English, of the items below. One liner/sentence descriptions, or incoherent descriptions will result in immediate rejection of the application. Please make sure to put clear thought in your writing and run it by colleague(s) and/or mentor(s) beforehand.

3.1 Problem/Need Addressed by Technology

(150 word maximum)

many Influencers, YouTubers, Gamers, or Rock Stars want to have a print-on-demand platform where they can create their own merchandise and sell it in an online shop.
but the problem was always that they can't afford the producing process (printing & shipping) or they don't have time to run such a business or maybe available services are based outside morocco and take a long time to ship it to morocco. and sometimes all of that!! which makes them miss a huge revenue they could have earned it.

3.2 Proposed Solution

Provide a description of your proposed solution (150 word maximum)

we will offer them a platform that offers a full-service merchandise solution for Actors, Athletes, Creators, and Musicians.
besides Good Quality Materials we will offer :
Fast Shipping: since we will be printing t-shirts in our workshop and our main focus will be on orders which give us the ability to print and ship in less than 48 hours
Low cost: we will be printing and shipping inside of morocco we will reduce the costs 5 times less.

3.3 Who is Your Competition?

Companies, Products and/or Technologies (150 word maximum)

there are many competitors that are doing the same such "merch by amazon" which sale branded products designed by customers and produced, sold, and shipped by Amazon, also there is TeeChip which is an online platform that allows artists, designers, and entrepreneurs to create and sell custom-printed merchandise. in addition to teespring individuals create campaigns in order to sell custom products on Teespring. Campaign creators are expected to design and market the product themselves. Teespring fulfills orders on campaigns that have reached a minimum sales goal (called "tipped" campaigns), and ships items to the buyers.

those 3 competitors are running internationally based and none famous in morocco. inside morocco, none of the companies are working in this exact field.

3.4 Describe your team and your team's strengths.

It is strongly recommended that you have at least one teammate (Group size of 2 or more). Please note: all teammates listed here should also be listed on the members section of the application home page (150 word maximum)

We are a team of engineers from 1337 who have a shared vision on working developing the print on demand industry, we have worked together on many projects for around 2 years and we make a good team, besides we have 2 contractors who will be working on printing the t-shirts and they have 1-year experience in this field.
we believe with our skills and our contractors' experience we can be successful in this project that we believe it's going to change the rules in this industry.

3.5 What do you hope to gain from participation in Explorer?

What are your goals and what do you hope to achieve with Explorer funds and resources? (150 word maximum)

With our strategy to launch in the market in 2 months, we are looking here to develop more of our knowledge on the business side, and also for networks and funding to achieve that goal.

3.6 Do you plan to use any of your funds as for a summer stipend ?

- **Up to two team members can request up to 1.500 Dhs/Month for a maximum of three months during the summer**
- **Only Students are eligible and will be employed as interns with UM6P**
- **The team members MUST be planning on working full-time on the project during the summer.**

- **If you plan to request a stipend it should be clearly included and justified in your budget. Separate line items should be included for each student requesting a stipend.**

Yes

We encourage teams to find other sources of funds for international travel. However, if you do plan to use Explorer funds for international travel, please list all of the travel details below, including travelers, destination, and estimated cost.

Due to COVID-19 restrictions, Explorer does not anticipate approving any travel. We follow all UM6P policies.

No

3.8 Team build-out

If you are looking to augment your team, please describe what you are looking for and how you plan to do it. (150 word maximum)

We will add good people in the business side as interns in the beginning and if they are good enough they can join the team. We already have one which is helping us and she is doing so well since she is holding a BBA from Alakhwyn University.

3.9 High-level business plan and path to market

Describe how you plan to make money and what your path to market is, i.e. how you plan to engage with customers in the next 3 to 6 months. If you don't know yet, state that this is something you are looking for help with (150 word maximum)

Our major revenue stream is expected to come from printing and selling the Goods as it amounts to up to 85% of the total revenue. While the remaining 15% is evenly distributed between the partnerships and software subscription fees.

3.10 Track record for the project or team

If this is a brand new project, say N/A, otherwise please let us know what progress you have made either as part of Explorer or outside (150 word maximum)

We have many influencers willing to work with us and join our platform. and we have a prototype for the website.

3.11 Since you are asking for over 50.000 Dhs of funding, please upload your business pitch here (slides only in PDF format).

MOCK RECOMMENDED FUNDING LEVEL:

(If YES to funding board question above, then this amount can be over 5K Dhs and the Funding Board will have final say, if NO, then this amount is the amount that will be awarded to the team and must be 5K Dhs or less)

Partial Amount: 100000

MOCK Internal Feedback (if any, to EXPLORER Administration):

- Slides need some work. Great timeline with Explorer. Need to shorten.

MOCK External Feedback (TO CANDIDATES):

- Great idea and impressive progress.
- You need to shorten the presentation, spend less time on the problem.
- Great competition slide, put it earlier in the presentation
- Add a slide explaining who the celebrities are and give specific examples
- Reduce your budget to a single slide and focus only on expenditure/needs through Aug 2021. Be careful relying on Explorer for development costs. Check on allowed expenses and also be mindful of the time it takes to get the funding approved.
